

**10th European Advanced Equipment Control/ Advanced Process Control (AEC/APC) Conference
Hotel Sheraton Catania, Sicily - Italy, April 28 - 30, 2010**

Dear authors, please note these guidelines!

Please prepare an **extended abstract** (up to two pages: one page of text, roughly 500 words, optionally one page of graphical illustrations), clearly describing the **purpose**, the chosen **approach**, and the achieved **results** of your work, and suggest one or more fitting **topic(s)** for your contribution from the list below:

1. Equipment and Process Fault Detection, Classification and Prediction
2. Data Management and Process Control
3. Metrology and Analytics
4. Fab-wide APC, Yield and "Multi-fab" Approaches, e-Diagnostics and e-Manufacturing
5. Standards and Roadmaps
6. Academia Contributions, Future Needs and Opportunities

There will be oral presentations and a poster session - **please indicate your preference**. The program committee will finally select well-balanced oral sessions.

Your abstract will be evaluated against the following criteria:

- Clarity (solved problem, approach, results)
- Usefulness for AEC/APC
- Significance/importance for AEC/APC
- Innovation/original work
- No advertisement is allowed! Suppliers' presentations should show concrete applications at customers' site or concrete cases of problem solving; joint presentations with customers will be appreciated.

To ensure clarity, you are asked to **follow the structure** given in the example below:

Example abstract structure

Title: APC - Future Challenges
Author(s): Mike MESSNER¹, Kos RED²
Affiliation: ¹Noware Corporation, ²Left Focus Center
Presenter: Mike MESSNER
E-mail: mm@noware.com
Fits to topic(s): 2. Data Management and Process Control
Preferred presentation: oral

1. Motivation

Provide a clear introduction to the problem/topic covered. Briefly describe the innovation compared to the state-of-the-art and current practice.

2. Description of the approach

Provide a clear description of the chosen method/approach.

3. Evaluation of results

Provide a clear and measurable evaluation of results.

ATTENTION:

Deadline for abstract submission is **January 08, 2010**.

Please use the possibility for [online abstract submission](#) or send the abstract to info@aecapc-europe.com and indicate in the subject field "Abstract submission 10th European AECAPC Conference 2010". Presenters will be notified by **February 05, 2010**. Final presentations have to be submitted in electronic format until **March 29, 2010**.
